Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The non-statutory double patenting rejection, whether of the obvious-type or non-obvious-type, is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent. In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969), In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970), In re Van Ornam, 686 F.2d 937, 214 USPQ 761 (CCPA 1982)', In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985)', and In re Goodman, 29 USPQ 2d 2010 (Fed. Cir. 1993). A timely filed terminal disclaimer in compliance with 37 CFR 1.321 (b) and (c) may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78 (d). Effective January 1, 1994, a registered attorney or agent of record may sign a Terminal Disclaimer. A Terminal Disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b). '

2. Claims 1-20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-22 of U.S. Patent No. 6,649,317. Applicant's argument has been carefully considered however the argument is not persuasive in view of the following. The skilled artisan in the art would use any of the radiation energy such as actinic or UV or IR in the bonding of the image that heat energy can react with a first reagent and a second reagent. Further applicants argue that the "317" does not apply radiation to the image after the image is created. When the

image is viewed by actinic radiation the image is exposed to radiation and as applicants have shown the image then continues to finish the cohesive bonding that the heat radiation initiated. Although the conflicting claims are not identical, they are not patentably distinct from each other because energy-activated printing utilizing a toner composition that has a reaction to energy activated components to enable the printed image to be permanently bonded onto a substrate. It would be obvious to one of ordinary skill at the time of applicant's invention to utilize various toners with energy activated components in providing a process of electrophotographic printing that bonds the printed toner permanently onto a substrate.

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
